UPCOMING METEOR-SHOWERS: SEPTEMBER 2009

Even if no big meteor showers hit the Earth in September, this
month is still of interest for MS enthusiasts. Sporadic meteors
flux is at its annual maximum in this period, thus providing
relatively good rates especially during morning hours.

EME: Version 2.0 of GJTRACKER is now available,

and includes a fairly detailed world Field Locator map to show what
parts of the world can see the moon (or any other celestial object).
This feature is accessed by selecting the "Real Time" mode when you
run the program. The GJHELP.pdf file has been updated to reflect the
new addition to the Real Time window:
http://bigskyspaces.com/w7gj/GJTRACKER.zip
The map redraws itself every minute. Sorry, but it is not currently
a user-sizable map. The screen size setting of 1280x768 pixels on my
laptop is just big enough to show the entire world map at once.

Jurek, LA4YGA, will activate JO39RC square (around 11st to 13rd december) during BCC contest. Planing to use station: IC-910 with PA GS35b and 9 elements antenna.
SOURCE: tnx to Jurek, LA4YGA, direct to MMMonVHF

*** W / DN66 ***

October 10- 14 I will be active on 6 meter EME from DN66 (Cohagen MT) with a 7 element Yagi and 800watts. I will have elevation. So I will be on during the EME contest as much as possible. This is a combination antelope hunt/ham radio trip so I hope I don't get confused an shoot the radio. I will also be on in mid-September from DN45 (Tom Minter Basin Cabin, MT) to shake down the equipment during favorable conditions. Gene, KB7Q
SOURCE: tnx to Lance, W7GJ, direct to MMMonVHF

*** C9 ***

Im going to C9 for a week in December 4th to the 11th, conditions that week will be realy good for EME. Im taking 6m with for EME, but want to take one other Band with. On 2m I can take 2 x 2m9ssb or 1 x 2m12 and 150W. On 70cm I can take 4 x 2m12EME and 75W. On 23cm I have 70W but no yagi yet. I don't have HI power on any of the bands so what band will yield most success and fun ? my guess is 2m Comments awaited, Derek Gravett Zs5y ex zs6ddg and V51/ZS5Y

XXX/DL1YMK EME DXpedition in October
As announced previously, we intend to perform another EME-DXpedition in October using the call XXX/DL1YMK (QTH in Europe) We hope to be QRV on 70, 23, 13 and 9 cm (no 2 m this time, in MI it was too boring for us looking at the computer screen playing in JT, as we were not strong enough to make a QSO in CW, hi). With the exception of 9 cm, which is our weakest band so far, we will not make any skeds in advance, hoping that there is enough interest to catch a new DXCC in a limited period of time. So as listed below, we just publish a timetable for all bands, as you have to find out yourselves, where we are and when we have common a moon ï¿½ this was some peoples wish, expressed in the Moon-Reflector earlier this year

letï¿½s see how this works out. Read more and all updates at:
http://www.mmmonvhf.de/latest.php?id=2858

GLENANS archipelago, Saint Nicolas Island (EU094 - IN77XR)
The same Manche area Ham team who was active formerly from Tombelaine (2007) and Brehat (2008) islands is once more on the go. Eight opï¿½s are going to Saint-Nicolas island (DIFM AT-010, WW Loc. IN77XR) in the Glenans archipelago (EU-094), located in French Britanny, ity] of Fouesnant (zip code 29170), Department Finistere/29 and Province Britanny (DPF 06). They will stay on the island between September 11th and 18th, using the callsign F5KAQ/p and homecall/p. Bands from HF over 50 MHz, 144 MHZ and more, up 10GHz. More details at:
http://www.mmmonvhf.de/latest.php?id=2860
SOURCE: tnx to Maurice, F5NQL-DX-News

*** EI / IO43... ***

Dermont, EI7IX, is thinking of going on a mini-dxpedition this winter during either the Leonids or Geminids to activate a "rare" square on 2 meters. I need some feedback as to which square is needed most, so please vote below. I cannot guarantee that the highest scoring square will be the one that is activated !
He build up a voting page: www.ei7ix.net/index.php?page=2-meters and waiting your responces...
SOURCE: Dermont, EI7IX on KST-Chat and http://www.ei7ix.net/

*** LX / JO30 ***

Theo/PA1TK, Kees/PA5WT and Rob/PA3GVI will be active as LX/homecall from Luxembourg on 4-7 September. Theo will operate in the IARU VHF Contest (144 MHz), while Kees and Rob will focus on the HF bands (80-10 metres, CW and SSB). QSL via home calls.

The VHF-DX-Portal MMMonVHF - Newsletter Credits & Info
****

Our Newsletter is compiled from the input of the USER of the
VHF-DX-Portal MMMonVHF as well by a lot of free usable
HF-V-U-SHF-Info-Sources and chats like ON4KST-, RU-VHF-DX-Net,
EA-V-U-SHF-Chat, N0UK-Chat and others...

* Many thanks to all USER who send us info and news *

Wherever we found the info we always indicate the source of the info.
If you get knowledge of an expedition, which is NOT listed at our
VHF-DX-Portal MMMonVHF or if you have additional info for an
expedition, PLEASE be so kind and send us this info at

* www.mmmonvhf.de/newsuser.php or www.mmmonvhf.de/kontact.php *

The MMMonVHF-Team is always trying to spread any expedition info as
much up-to-date and reliable as possible and as long as the info does
not violate with our MMMonVHF-Policy.

Have a lot of fun and enjoy the VHF-DX-Portal MMMonVHF!
